Comments:

- Great balance of teaching/theory and professional dialogue. All of it was highly relevant to my day-to-day work as an Educational Psychologist and also to my life as a parent, partner and friend. I have been reminded of old knowledge I had forgotten, learned new things and most importantly have built the confidence to go and try some of it in practice. Thank you for another extremely worthwhile day. I don't know how you do it but you manage to fit 3 days content into one day's training that actually feels more like a morning's training in terms of effort and attention. Brilliant!
- Very helpful day. Thanks Mark.
- I thoroughly enjoyed the session. The interactive nature was excellent. I liked the opportunities to speak to different people. The delivery was clear, positive and reflective. There is so much to take away and think about. Thank you so much!
- Well delivered as always, thank you Mark. Lots to take forward in the short and long term. Great to have such high-quality training without the travel.

- Brilliant day and helpful to reflect on thread between the 3 days around the key principles. Helped consolidate in my mind the key takeaways for effective coaching. Thank you - great course!
- It is very good and practical. The material is very useful for my future work with my clients.
- Another really great day. Thank you!
- A valuable course, lots to take forward and consider. Many thanks and sorry about my internet. Very frustrating.
- Thank you for today, Mark. I enjoyed the session and opportunity to think about collaboration in coaching.
